

# Invitation to a Public Meeting

## Gamebridge Solar

To prepare for future electricity demands and support a reliable grid for Ontarians, the Independent Electricity System Operator initiated Long-Term Request for Proposals to secure new electricity resources that could be in service into the 2030s and beyond.

Atura Power, a subsidiary of Ontario Power Generation, is submitting a proposal to develop a ground mounted solar-powered electricity generation facility in the township of Ramara, Ont., as part of the Independent Electricity System Operator's Long-Term Request for Proposals. The proposed Gamebridge Solar project will be located between Ramara Road 47, Concession Road 1, Concession Road A and a quarry to the east.

## Atura Power

## Solar Project Description

The proposed Gamebridge Solar project will have an electricity generation capacity of up to 25 megawatts. The project will include solar panels, inverters, mounting systems, and electrical infrastructure designed to capture sunlight and convert it into electricity for distribution to Ontario's electricity system.

## Upcoming Public Meeting

We invite you to attend a public meeting to learn more about this proposed project. Information materials from the meeting will also be available on the project webpage following the meeting.

### Public Meeting Details

**Date:** Wednesday, July 30, 2025

**Location:** Udney Community Centre  
2347 Concession Road 10, Brechin, Ont. L0K 1B0

**Time:** 4:00 to 7:30 p.m.

**Project Webpage:** [aturapower.com/gamebridge](https://aturapower.com/gamebridge)

## Project Contact
