

MONTHLY PUBLIC ENGAGEMENT REPORT

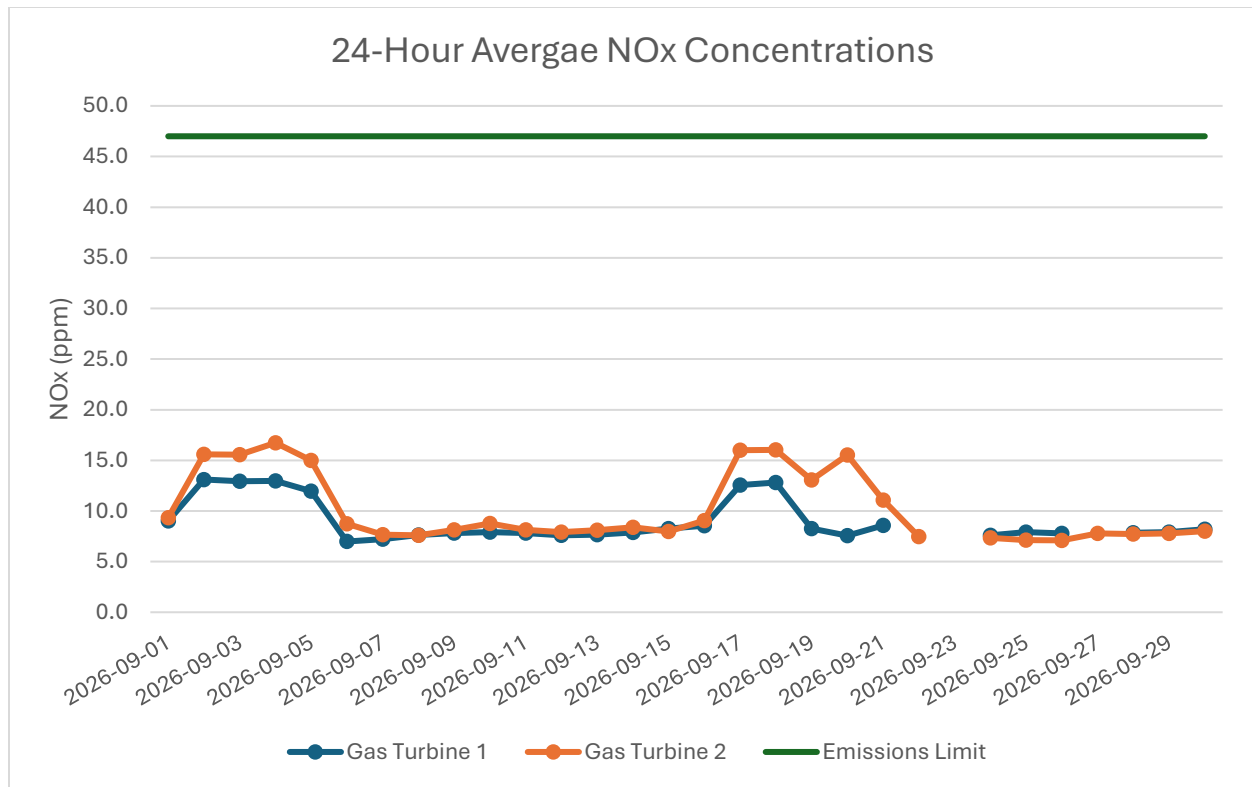

September 2026

The following information is presented as required by Condition 6.1 and 6.2 of the Environmental Compliance Approval (ECA) A-500-723173462 covering the period of September 1, 2026, to September 30, 2026. The report summarizes Portlands Energy Centre's environment emissions data for Nitrogen Oxides (NOx), environmental and operational facility updates, and public and ministry comments.

NOx Data:

The following data presents the assessment of 1-hr and 24-hr Nitrogen Oxide concentrations under "Normal operation" (as defined in Schedule 1) measured by the Continuous Monitoring System (CEMS) during the calendar month.

Notes:

- Breaks in the line represent days that did not operate at normal operations.
- The Emissions Limit (47 ppm) is specified in the ECA.

Facility Updates and News:

- No spills or incidents were reported at Portlands Energy Centre during this time period.
- No major maintenance occurred during this period.

Comments and Complaints:

- No complaints were received by the public during this time period.

Annual Community Engagement Report:

- The 2026 Annual Community Engagement Report will be completed by March 31, 2027. Once completed will be made available here.
